

Loop modules

OMS933

Order-No.: OMS933

Output Module for Sounder with bidirectional isolator

- Module for connecting external devices
- Automatic addressing (soft addressing)
- 1 floating output for triggering external alarm devices
- User-defined input and output
- Input monitored with terminators (pull-up in module)
- Technical specification:
 - Type of connection: 2-wire bus
 - Addressing: max. 126 elements/loop (soft addressing)
 - Operating voltage: 15-30 VDC
 - Standby current: 500 μ A
 - Alarm current: 5 mA
 - Floating changeover contact: 30V / 1A
 - Operating temperature: -10°C to +60°
 - Class of protection: IP54
 - LEDs: 1 yellow LED for malfunction
 - Dimensions (W x H x D): 93 x 93 x 55 mm
 - Colour: grey, similar to RAL 7035
 - Weight: approx. 300g
