

## Wireless Detection

### SRC 3000 IM

Order-No.: SRC 3000 IM

#### Wireless input module

- Nominal current 15  $\mu$ A
- Power consumption sending: typ. 35 mA,
- Power consumption receiving: typ. 25 mA
- Indication of the signal strength while programming
- Transmission of low battery warning (Alkaline battery type IEC 6LR61) to the panel
- Life signs are sent regularly in order to keep up the control function
- Technical specification:
  - operating voltage: 6 Vdc
  - quiescent current: 15  $\mu$ A
  - alarm current: 35 mA
  - frequency: 433, 42 MHz
  - operating temperature: -10° to +55° C
  - Storage temperature: -20°C up to +60°C
  - dimensions: 93 mm x 121 mm
