

Special detection

SSC-B

Order-No.: SSC-B

Cable black

- sensor cable for common application
- electrical resistance changes in response to changes in temperature
- plastic co-axial conductor with acid and base resistant nylon coating
- Technical specification:
 - maximal cable length: 300m
 - 1m alarm temperature: 70-125 °C
 - 10m alarm temperature: 45-100 °C
 - tensile strength: 1000N
 - weight: 2.15Kg / 100m
 - colour: black
 - diameter: 4.15mm
