

# Fire alarm control panel MCU304

## MCU304

Order-No.: MCU304

### Main Control Unit - 4 loops

- Microprocessor-controlled, modular
- Compact sheet steel wall-mounted
- Integrated controls with numerical
- Connection for 4 loops (2 loop
- 16 conventional type zones (2
- 126 programmable zones
- Includes foil front for maximum
- Includes power supply (3 A) with
- Central, fully monitored coordination
- LCD display with 4 x 20 characters
- 3 potential free contacts (alarm,
- 9 OC (open collector) outputs
- Standard RS 232 (V.24) interface
- Log printer may be incorporated
- Does not include detector components
- Technical specification:

Mains voltage: 230 Vac, 50/60

Operating voltage: 24 Vdc

Power supply: 3 A

Battery capacity: 26 Ah / 24 V

Standby current: 86 mA

Interfaces: 1x RS 232 and 1x

Supervised controlled output:

Output 24 V for external use 800

Dimensions (H x W x D): 490

Housing: sheet steel, RAL 7035

Weight: 14 kg w/o batteries
